CSU GE Breadth or IGETC
Note: Major courses may be double counted towards general education.

What is an AA and AS Degree?

AA and AS are acronyms for Associate in Arts and Associate in Science degrees that are designed specifically for transfer to the California State University System. The degrees are the results of Senate Bill 1440, a transfer bill that required the California Community Colleges to offer associate degrees for transfer in many of the most popular majors, and for the CSU to provide California Community College students who have earned an AA or AS degree. These degrees can be completed in 60 transferable semester units (or 90 quarter units) and include coursework in general education, major preparation,

How are the AA and AS degrees different from the associate degrees that community colleges already offer?

Students completing an AA or AS degree receive priority admission to the CSU system. Students who have completed an AA and are admitted to a CSU major that has been deemed similar are guaranteed admission at junior standing, and the opportunity to complete a baccalaureate degree with 60 additional semester (or 90 quarter) units. AA and AS degrees are recognized by both the California Community College and CSU systems as a measure of preparation and readiness for division transfer at the CSU. Students should check with a counselor to see if their major is deemed similar at the CSU campuses they plan to apply to.

What does it mean when you say "a degree with a guarantee"?

This program guarantees that students who earn an AA or AS degree from a California Community College will be admitted to a California State University campus. The campus you will be admitted to depends on several factors, such as the location of your community college, the program of study that a student intends to follow, and a student's competitiveness. The program also guarantees a student will enter the CSU system at junior standing, and only need to complete 60 additional semester units (or 90 quarter units) to earn a bachelor's degree in a CSU program that has been deemed as similar.

What is the benefit of earning an AA or AS degree?

Besides the benefit of completing community college coursework with an associate degree in hand, this program also provides the necessary preparation to transfer to the CSU system and complete a baccalaureate degree. Students who earn an AA or AS degree receive admission priority and guaranteed admission with junior status to the CSU system, along with the ability to complete a baccalaureate degree with only 60 additional semester units (or 90 quarter units) in a degree program that has been deemed similar.

What are the requirements for earning an AA or AS degree?

Community college students should work with a counselor to develop an academic plan that includes the specific course requirements for degree goals. In general, a student will be required to complete 60 transferable semester units (or 90 quarter units), which includes coursework in general education, major preparation, and elective courses. Students complete either the AA or AS degree with a minimum grade of C-.
